Experience

Unidays-Web Developer

2022 - 2022

I worked here during my online course and during this internship I created a portfolio website using HTML CSS and JS.

Tulip Interfaces-Web Developer

2021 - 2023

Contributed to a web project here in the Ruby language.

Projects

Web Development

Made this portfolio using HTML CSS. Although this template was ready made but when I learnt HTML and CSS I tried to implement it using project only.

Web Development

Made this 2nd Portfolio with a complete new template made by me using HTML CSS and some part of JS.

Water Drop Bucket Game (LibGDX)

Made this game with new Framework named libGDX using the Java Language as a backend.

Achievements

1. Just completed a 1 month web development internship at Unidays.
2. I was chosen as one of the top 10 web developers at an event hosted by the Spider team led by IITM.
3. Become the best Python programmer with a score of 95% on the internship platform.
